Darshikā: Journal of Integrative and Innovative Humanities

To promote the importance of interdisciplinary studies and the coalescence between humanities and other areas such as the sciences—natural, social, or applied—economics, and business administration, the Faculty of Humanities, Chiang Mai University, is launching Darshikā: Journal of Integrative and Innovative Humanities. This peer-reviewed bi-annual journal aims to disseminate novel interdisciplinary studies and to bridge the gap between humanities and other disciplines, emphasizing the critical role of humanities in any field of study's discussion and innovation. Additionally, it is hoped that the journal will become recognized in international academic journal indexes, such as Scopus, within four years.

Objectives

To promote the importance of interdisciplinary studies and the coalescence between humanities and other areas

Journal Standards

To comply with the standards for academic journals in the Social Sciences and Humanities set by the OHEC and TRF, the editorial board consists of professors and doctoral experts who have been conducting research continuously. The editorial board members are mainly from external institutions and partly from internal institutions. All submitted articles are double-blind peer reviewed by at least two reviewers. The journal is published every May and November

Article screening policy

1. The journal accepts interdisciplinary articles that are written in English and that discuss any topics concerning the humanities in relation to other areas. The articles can be research articles, academic articles, review articles, or book reviews.
2. All submitted articles are reviewed by at least two reviewers in related fields and are approved by the editorial board.
3. Authors must comply with regulations and satisfy conditions set by the editorial board, and agree that for the final production phase, the articles' formatting can be modified or adjusted by the co-editors in chief.

Article review process

Authors register with Thai Journals Online (ThaiJo) to submit articles.

The editorial team notifies authors upon receiving articles.

The co-editors in chief preliminarily assess whether the received articles are within the scope of the journal. This process also includes the assessment of academic quality and contributions. Authors will be notified whether or not the articles will be sent out for review within 15 days.

The editorial team sends qualified articles out for review. Each article will be assessed by at least two reviewers in related fields to determine its quality and contributions. The review process is double blind. It takes approximately 20 - 40 days.

Based on the reviewers' comments, the co-editors may accept, ask authors for revision, or reject articles. Authors will be informed about the review results within 15 days after the editorial office receives the reviews from the reviewers.
